BALETE - STORY OUTLINE

Northern Luzon, Philippines - 1569.

Dense, tropical forest. A unit of Conquistador Soldiers attempt to cut down a massive, towering Balete Tree, its giant gnarled trunk and tortuously tangled roots dominating a low incline. Their violent attack with axes incurs the wrath of the mythic Balete, as nature turns on its destructors. A spine-chilling wail echoes over the jungle - with the fleeting glimpse of something hideous and sub-human emerging from the fabric of the tree, savaging the soldiers - before we time-jump to:

Northern Luzon, Philippines - 2023.

En route to her red cross hospital in the remote Taguan village, in the northern Philippines, British Nurse Erin clashes with illegal loggers about to destroy a giant, ancient Balete Tree. Amid the chaos and shooting of her Filipino colleague the spirits of the tree come alive in the shape of vicious, terrifying creatures who savage the loggers, leaving Erin alive but haunted by the horrors she witnessed. Two years later in the village British architect Xander and his young restoration team (British & Filipino) uncover a hidden mural in the old Spanish church, depicting the Conquistadors under attack from the same vengeful tree creatures. Xander notes Erin's shock at the images, and comes under strict orders from the church's fiery priest, Father Aduarte, to cover over the 'ungodly' mural. This leads Aduarte into conflict with both Xander and Mang Tindoc, a local Shaman, who warns of another rising of the Balete creatures, taking revenge for the destruction of the forests.

When a unit of armed Filipino Land Protectors, fighters of corporate deforestation and led by Baya & Mercy, arrive in Taguan with a hostage from the logging company - they find themselves joining forces with Erin, Xander, Aduarte and the villagers in a desperate fight against an onslaught of the mythic tree creatures - children of the ancient Balete.

Aduarte in desperation asks Tindoc for help. The old Shaman tells them all that only a human sacrifice will appease the spirits within the Balete and put it once more to rest.

Who will that be, and can they stop the terrifying onslaught of the vengeful Balete?

BALETE is a heart-pounding horror movie - a UK/Philippines co-production made for International Release, featuring both leading Filipino and British actors - bringing together the skills of top professional technical, creative and production talent.

BALETE – DIRECTOR'S VISION by Terence Daw

Of all the film genres, horror movies have remained the most consistently popular and successful at the global box office. As both writer and director of *BALETE*, my aim is to make a compelling, thrilling and above all spine-chilling feature film for worldwide release.

With a rich ensemble of both Filipino & British characters, we are presenting a character-driven story rooted in Filipino folklore and culture that takes us from Conquistador invaders to present day Illegal Loggers and their violent conflict with Land Protectors, balancing a timely eco-message with the wrath of nature's justice and the human terror it brings. I'm excited to bring my experience as a film & TV director to creating a stand-out horror movie for a global audience.

Shooting wide-screen with the latest camera technology alongside a top-level local crew, ambitious production design and a brilliant assembly of actors and creatives, *BALETE* will have a truly cinematic look, embracing the stunning jungle and village locations – painting our scenes with bold colours and rich texture. Our lenses, camera movements and lighting will combine to heighten the pace and tension, boldly following the trajectory of our principal characters, their relationships, battles against deforestation and ultimately their desperate fight for survival against hideous sub-human creatures. In all of this, Practical SFX will be the priority.

I will have two cameras for the entire shoot, to achieve the best coverage of performance and storytelling, with additional cameras to cover action sequences. Sound design will also play an integral part in creating the atmosphere and bringing our story to life, as will a specially-composed soundtrack score.

Bringing all of these elements together with my co-producers and creative collaborators in the Philippines and in the UK, I'm confident of delivering a successful feature with a captivating story, compelling characters and high production values. *BALETE* will have all the commercial potential and prospects for international distribution for both theatrical release and streaming platforms.
